<u>Subject</u>	<u>Autumn</u>	<u>Spring</u>	<u>Summer</u>
Maths	<p>Maths pupils build upon the firm foundations made and embed and develop their calculation strategies. They calculate with fractions, decimals and percentages. Pupils identify factors, multiples, square and prime numbers. In addition, they consolidate their long multiplication strategies and they are taught long division. Through regular practice they become fluent and confident arithmetic experts. Maths lessons provide children with opportunities to develop their logical and critical thinking skills whilst answering reasoning questions across a range of topics such as: shape, measure, algebra, ratio and data. Pupils will be supported to develop their problem-solving skills whilst searching for patterns and relationships and when solving open investigations.</p>		
Science	Animals including humans: circulatory system Evolution and Inheritance	Electricity and light	Investigative Skills Microorganisms
History	Ancient Greece	WWII and the home front	
Geography			Rivers in the Yorkshire Dales Mapping Skills
Art	Painting		Drawing and sketching – Michael Tobin Collage
DT	Animal plush toys	Bird boxes	Moving vehicles
PSHE	Sex and relationship education: Healthy relationships/how a baby is made – 2 units	Health and Wellbeing Safety and the Changing Body	Citizenship Economic Wellbeing Identity
RE	How do Sikhs show commitment?	Why does religion look different around the world?	Why is it better to be there in person? Why is there suffering?
