

# Armley Park Primary School

2 February 2026

Dear parents and carers,

January is finally over after what seemed to be a very long month! Let's hope that as we head towards Spring, the weather starts to improve. We have had lots of rainy days recently which means that there have been days when the children have not been able to go outside but hopefully this week's weather will be a little better.

A few weeks ago, the children participated in World Religion Day where each class learnt about a religion that they may not cover within the RE curriculum. We had visitors from a few different places of worship come to join us and the children produced some great work as a result. Thank you to Miss Whiteley for organising this and we look forward to having more visitors in school in the future to support our knowledge and understanding of different religions.

This week, Mrs Wallace has planned a range of different activities as part of Children's Mental Health Week. The focus for this is 'This is My Place' and the children will learn about what it means to be belong within their community. We have visitors coming to join us from Mindmate who will be working with some classes to develop their understanding even further.

Next week is our annual Literature Week where all classes focus on the same book and complete work based on this. The teachers have worked hard to plan a range of different activities and we would like to invite you to join your child in choosing some books to take home to keep. At 3pm on the following days, please collect your child from class and then head to the hall to help your child choose a couple of new books to read at home.

Monday 9<sup>th</sup> February – Nursery and Reception

Tuesday 10<sup>th</sup> February – Year 1 and Year 2

Wednesday 11<sup>th</sup> February – Year 3 and Year 4

Thursday 12<sup>th</sup> February – Year 5 and Year 6

## Online Safety

Alongside this newsletter, you will also receive a copy of the monthly Online Safety Newsletter which provides lots of information about how to keep your child safe online. As technology is changing so quickly all the time, these newsletters provide up to date information which is aimed at preventing your child from being at risk when they are playing games online. This month's edition looks at how AI is used to alter images and also ways to keep safe when scrolling through TikTok.

Thank you

Emily Caine  
Headteacher
